SHORELAND ALTERATION PERMIT APPLICATION

A SITE MAP AND GRADING PLAN ARE REQUIRED TO BE SUBMITTED WITH THE FOLLOWING INFORMATION:

1. Existing and proposed topography of the site taken at a contour interval sufficiently detailed to define the topography over the entire site. Ninety percent of the contours shall be accurate within one-half contour interval of the true location.
2. The site's property lines shown in true location with respect to the plan's topographic information.
3. Location and graphic representation of all of all existing and proposed natural and manmade drainage facilities.
4. Detailed plans of all surface and subsurface drainage devices, walls, cribbing, dams and other protective devices to be constructed with or as a part of the proposed work, together with a map showing the drainage area and the estimated runoff of the area served by any drain.
5. Location and graphic representation of proposed excavations and fills, of on-site storage of soil and other earth material, and of on-site disposal.
6. Location of proposed final surface runoff and erosion and sediment control measures.
7. Quantity of soil or earth material in cubic yards to be excavated, filled, stored or otherwise utilized on-site.
8. Outline of the methods to be used in clearing vegetation, and in storing and disposing of the cleared vegetative matter.
9. Proposed sequence and schedule of excavation, filling and other land disturbing and filling activities, and soil or earth material storage and disposal.
10. Location of any buildings or structures on the property where the work is to be performed and the location of any buildings or structures on land of adjacent owners which are within 15 feet of the property or which may be affected by the proposed grading operations.
