- Residential customers (except those in apartments or 4 plexes) are responsible to read their own water meter each month and submit the reading with the payment. Please read your actual water meter located inside your home, most often in the laundry or utility room, and NOT the remote reader on the outside of your home. Additional meter and rate information is available upon request or on our website, www.ci.baxter.mn.us.
- If the City does not receive a meter reading from you, we will estimate your usage. If this occurs, there will be no adjustment due to over or under charging you for that particular month. If the estimate is high, you will be charged the minimum until the usage is satisfied. If the estimate is low, you will have to pay the difference when then accurate reading is received.

***CONTINUED ON NEXT PAGE**

- If the City has to read your meter after two months of estimates, a meter reading fee will apply (currently \$25.00).
- Service will remain in your name for the service address listed above until we receive a completed "Termination of Utility Service" form. You will be responsible for any outstanding balance until we receive the completed form from you.
- Residents anticipating high outdoor water usage during the summer months may purchase and install a separate irrigation meter in lieu of the summer sewer rate. Please contact Utility Billing at (218) 454-5121 for more information.

By signing below you agree to the above terms regarding meter readings and discontinuing service
